Main Symbols defined as Ligatures

	Ligature: cc		Ligature: CC		Ligature: BY		Ligature: NC
	Ligature: NC (EU)		Ligature: NC (JP)		Ligature: ND		Ligature: SA
	Ligature: Share		Ligature: Zero		Ligature: Public Domain		

Force CSS usage for Ligatures

```
body {  
  text-rendering: optimizeLegibility;  
  -webkit-font-variant-ligatures: common-ligatures;  
  font-variant-ligatures: common-ligatures;  
}
```

Ligature usage examples:

"CC-BY-NC-ND" becomes  if the "YAP Creative Commons" font is applied with ligatures activated. You may use a hyphen or a simple space as separator to add the spaces between the final glyphs: Example "BY NC" and "BY-NC" become both . To get the european variation of NC, type "NC (EU)" or "NC-(EU)" or "NC(EU)". To get the japanese variation of NC, type "NC (JP)" or "NC-(JP)" or "NC(JP)".

You may add digits as well as "." or "," to indicate the version number. "CC-BY-SA-4.0" will become .
